WHO WE ARE

The Susquehanna Chapter of the Wooden Heritage Canoe Association was formed in January, 2010. The boundaries of the Susquehanna Chapter are not precise but generally encompasses the majority of the Susquehanna River watershed in Central Pennsylvania plus the Potomac River watershed in Adams, Franklin and Fulton Counties. Many of our members restore wood and canvas boats, some build them from scratch and many simply enjoy the enjoyment and pleasure of paddling these wonderful vintage craft.

CWBBS members working on a variety of projects during a recent visit.

In early November 2013 John Naylor and Howard Davis visited the *Chesapeake Wooden Boat Builders School* in the North East, Maryland as a trial run for a Susquehanna Chapter meeting there. CWBBS meets every Tuesday evening (and some Saturdays) to build and restore wooden boats and canoes. Their shop features a full array equipment tools and the fellows are always eager to share helpful information. One of the items we will discuss at the January 18 meeting is a group trip to the boat builder school.
